

# ESPERANTO: MODULAR UNITS FOR A MODERN BATHROOM

Posted by [Caroline Williamson](#) on 09.24.15 in [Home Furnishings](#), [Interior Design](#), [Main](#)

ESPERANTO is a new bathroom collection from Italian company Rexa Design that was designed by Monica Graffeo. Perfect for small spaces, the collection features modular units that can fit together like a puzzle to create the perfectly optimized bathroom.

The units can be hung on the wall or placed on trestles depending on your needs. After the composition is decided, you can complete the look with sink basins, mirrors, and holders.
