Drawing inspiration from traditional and contemporary design, the **Details** collection is ideal for both floor and wall coverings. Available in an attractive palette of pastels and neutrals, it adds a welcome dash of character to every

environment. The collection comes with either a matt or gloss finish, and turns ceramic into a fully fledged furnishing element that meets the needs of traditionalists and fans of the most sophisticated design. The material's distinctive,

three-dimensional graphic finish offers a highly evocative decorative motif. Details is available in nine colours in sizes 30x90, 30x30, 15x15 and in a hexagonal format, for both floor and wall applications.
