REXA

IT Intrisa di energia e del senso della “cura”, la vasca rappresenta uno degli elementi chiave della stanza da bagno. Silhouette organiche e accoglienti seguono le orme dell'abitare contemporaneo, progettate all'insegna di comfort, ergonomia e materiali ultra-performanti ed espresse nelle pagine di questo volume, pensato per raccogliere tutta la nostra competenza ed esperienza acquisita negli anni.

EN Imbued with energy and a sense of “care”, the bathtub is one of the key elements of the bathroom. Organic and welcoming silhouettes follow the footsteps of contemporary living, designed with comfort, ergonomics and ultra-performing materials and expressed in the pages of this volume, conceived to gather all our expertise and the experience we gained over the years.

FR Imprégnée d'énergie et du sens du “soin”, la baignoire est l'un des éléments clés de la salle de bain. Des silhouettes organiques et accueillantes suivent les traces de l'habitat contemporain, conçues sous le signe du confort, de l'ergonomie et des matériaux ultra-performants et exprimées dans les pages de ce volume, conçu pour rassembler toute notre expertise et expérience acquises au fil des ans.

DE Die Badewanne ist eines der Schlüsselemente des Badezimmers, das von Energie und einem Gefühl der “Pflege” durchdrungen ist. Organische und einladende Silhouetten folgen den Spuren des zeitgenössischen Lebens, entworfen mit Komfort, Ergonomie und leistungsstarken Materialien und ausgedrückt in den Seiten dieses Buches, konzipiert, um all unser Know-how und die Erfahrung, die wir im Laufe der Jahre gewonnen haben, zu sammeln.

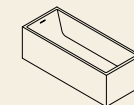

ES Impregnada con energía y un sentido de “cuidado”, la bañera representa uno de los elementos clave del baño. Las siluetas orgánicas y acogedoras siguen los pasos de la vida contemporánea, diseñadas con comodidad, ergonomía y materiales de alto rendimiento y expresadas en las páginas de este volumen, concebidos para reunir toda nuestra experiencia y la experiencia adquirida a lo largo de los años.

- IT Il sistema airpool si basa sull'apporto di bolle d'aria all'interno della vasca per un massaggio rigenerante che aiuta a stimolare il rinnovamento cellulare e a tonificare la pelle. L'aria viene immessa nella vasca dai microfori posti sul fondo, secondo un metodo specifico dedicato ad una precisa distribuzione dell'aria per un massaggio rigenerante. Questo sistema prende ispirazione dalle terme dove, in modo naturale, il vapore si espande dal basso. Grazie al sistema ad aria, i tubi si asciugano automaticamente a fine utilizzo.
- EN The airpool system is based on the supply of air bubbles inside the tub for a regenerating massage that helps to stimulate cell renewal and to tone the skin. Air is blown into the tub by the micro-holes placed on the bottom, according to a specific method dedicated to a precise distribution of air for a reinvigorating massage. This system takes inspiration from the thermal baths where, in a natural way, the steam expands from the bottom. Thanks to the air system, the pipes are dry out automatically at the end of use.
- FR Le système d'Airpool est basé sur l'apport de bulles d'air à l'intérieur de la baignoire pour un massage régénérant qui aide à stimuler le renouvellement cellulaire et à tonifier la peau. L'air est soufflé dans la baignoire par les micro-trous placés sur le fond, selon une méthode spécifique dédiée à une distribution précise de l'air pour un massage revigorant. Ce système s'inspire des thermes où, d'une façon naturelle, la vapeur s'étend à partir du fond. Grâce au système d'air, les tuyaux s'assèchent automatiquement à la fin de l'utilisation.
- DE Das Airpool-System basiert auf der Zufuhr von Luftblasen in die Wanne für eine regenerierende Massage das hilft, die Zellerneuerung zu stimulieren und die Haut zu straffen. Durch die am Boden angebrachten Mikrolöcher wird die Luft nach einer bestimmten Methode in die Wanne geblasen einer präzisen Luftverteilung für eine belebende Massage gewidmet. Dieses System ist inspiriert von den Thermalbädern, in denen sich der Dampf auf natürliche Weise von unten ausdehnt. Dank des Luftsystems trocknen die am Ende der Nutzung automatisch aus.
- ES El sistema Airpool se basa en el suministro de burbujas de aire dentro de la bañera para un masaje regenerador que ayuda a estimular la renovación celular y a tonificar la piel. El aire se introduce en la bañera mediante los microagujeros situados en el fondo, según un método específico dedicado a una distribución precisa del aire para un masaje revitalizante. Este sistema se inspira en los baños termales donde, de forma natural, el vapor se expande desde el fondo. Gracias al sistema de aire, las tuberías se secan automáticamente al final de su uso.

SISTEMA AIRPOOL / AIRPOOL SYSTEM

IT Il sistema airpool si basa sull'erogazione di bollicine d'aria all'interno della vasca per un massaggio rigenerante volto al rinnovamento, alla compattezza e alla tonicità dei tessuti. L'aria viene soffiata nella vasca tramite dei microfori posti sul fondo, secondo uno schema studiato e specifico, dedicato all'erogazione precisa dell'aria per un massaggio rinvigorente. Tale sistema prende ispirazione dalle vasche termali dove, per via naturale il vapore gorgoglia dal fondo. Grazie al sistema ad aria, le condutture dei microfori vengono asciugate automaticamente al termine dell'utilizzo.

EN The airpool system is based on the distribution of air bubbles inside the bathtub for a regenerating massage aimed at the regeneration and toning up of tissue. The air is blown into the bathtub through micro holes placed on the bottom, according to a rehearsed and specific method, intended to the precise distribution of air for a reinvigorating massage. This system takes inspiration from thermal baths where, in a natural way, steam bubbles through bottom. Thanks to the air system the ducts of micro holes are automatically dried after use.

FR Le système airpool est basé sur la production de bulles d'air à l'intérieur de la baignoire pour un massage revigorant visant à renouveler, la compacité et le ton des tissus. L'air est soufflé dans la baignoire à travers de jets minuscules placés sur le fond, selon un programme conçu et consacré à la production précise d'air pour un massage revigorant. Ce système est inspiré par les thermes où, d'une manière naturelle la vapeur bouillonnante provient du fond. Grâce au système d'air, la tuyauterie des micro-jets est automatiquement séchée après l'utilisation.

DE Beim Airpool wird Luft über spezielle Düsen in die Badewanne geblasen und fein verteilt, für eine belebende Massage. Diese Micro Luftdüsen sind im Boden der Wanne eingelassen und sorgen für eine stimulierende Massage. Das System nimmt die Inspiration der natürlichen Thermalbäder, wo die der Wasserdampf in Form von Luftbläschen aus dem Boden quirlt. Alle Leitungen werden nach dem Whirlen mittels Luftsystem trocken geblasen.

ES El sistema AIRPOOL está basado en la incorporación de burbujas de aire en el interior de la bañera para un masaje regenerante destinado a la renovación, tonificación y firmeza de los tejidos. El aire es inyectado en el interior de la bañera a través de micro-orificios realizados en la parte inferior, de acuerdo con un esquema estudiado y específico, con un aporte de aire preciso para conseguir un masaje vigorizante. Este sistema está inspirado en los baños termales donde, de manera natural, el vapor del burbujeo brotaba del fondo. Gracias al sistema de aire, la tubería de los micro-orificios se secan de forma automática después de su uso.

Sistema Airpool / Airpool system

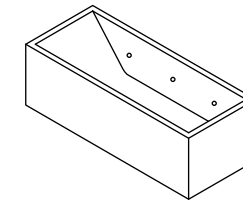

Sistema idromassaggio / Whirlpool system

Cromoterapia / Chromotherapy system

SISTEMA IDROMASSAGGIO / WHIRLPOOL SYSTEM

IT Il sistema idromassaggio si basa sull'erogazione di acqua calda mescolata ad aria per un massaggio energetico, il quale consente di combattere la cellulite, migliorare la circolazione e l'ossigenazione dei tessuti. Il sistema si compone di bocchette, disposte sui lati della vasca, secondo uno schema preciso volto all'ottimizzazione dei risultati, che erogano acqua calda miscelata ad aria. Grazie a una pompa che compone il meccanismo dell'idromassaggio, l'acqua contenuta nella vasca viene aspirata all'interno del circuito, scaldata, miscelata all'aria e poi reimpressa attraverso i diffusori.

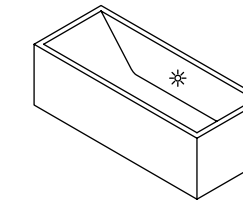

EN The whirlpool system is based on the distribution of hot water mixed up with air for a vigorous massage, which helps reducing cellulite, improve flow of blood flow and oxygenation of tissues. The system consist of nozzle, arranged on the sides of the bathtub, following a precise methods aimed to results optimization, that distribute hot water mixed up with air. Thanks to a pump, that compose the mechanism of the whirlpool system, the water contained in the bathtub is loaded in the circuit, heated, mixed up with air and reintroduced through the nozzle.

FR Le système de balnéothérapie est basé sur la distribution de l'eau chaude mélangée avec de l'air pour un massage vigoureux, ce qui aide à combattre la cellulite, améliorer la circulation et l'oxygénation des tissus. Le système se compose de buses, disposées sur les côtés de la baignoire, selon un modèle qui a pour but l'optimisation précise des résultats, qui fournissent de l'eau chaude mélangée avec de l'air. Grâce à une pompe qui constitue le mécanisme de la balnéothérapie, l'eau contenue dans la baignoire est aspirée à l'intérieur du circuit, mélangée à l'air, puis chauffée et renvoyée à travers les diffuseurs.

DE Dieses Wassersystem basiert auf einen Ausstoss von warmem Wasser gemischt mit Luft. Dieser Massagestrahl stimuliert die Muskulatur, sowie bekämpft Cellulitis. Der körperliche Kreislauf und Sauerstoffaufnahme werden angeregt, sowie der lokale Stoffwechsel. Die Düsen sind seitlich am Badewannenrand, gemäß einem gezielten Schema, angebracht. Über eine Pumpe wird das Badewasser entnommen und gemischt mit Luft, wieder in die Wanne gepumpt. Das Restwasser wird entleert.

ES El sistema de hidromasaje esta basado en el suministro de agua caliente mezclada con el aire para un masaje energetico, lo que ayuda a combatir la celulitis, mejorar la circulación y oxigenación de los tejidos. El sistema consta de boquillas, dispuestas a los lados de la bañera según un estudio preciso dirigido a la optimización de los resultados, que dispensan el agua caliente mezclada con el aire. Gracias a una bomba que compone el hidromasaje, el agua que contiene la bañera es aspirada y calentada dentro del circuito, despues de hacer la mezcla con el aire es nuevamente inyectada en el interior de la bañera a traves de los difusores.

CROMOTERAPIA / CHROMOTHERAPY SYSTEM

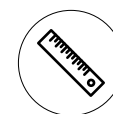

IT Il sistema cromoterapia si basa su principi secondo i quali, l'utilizzo dei colori, normalmente regolato da principi comuni, aiuta il corpo e la psiche a ritrovare il naturale equilibrio stimolando mente e corpo. Il sistema funziona grazie all'inserimento di un impianto d'illuminazione a tre colori all'interno della vasca (impianto sicuro e isolato) che permette di "colorare" l'acqua secondo tre cicli cromatici studiati appositamente per ottenere il massimo beneficio psico-fisico: Tonic, Relax e Energy.

EN The chrome system is based on the principles of color therapy, according to which the use of colors, usually regulated by common principles, helps the psychophysical restoration by stimulating mind and body. The system is composed of a three colors lighting system installed inside the bathtub (isolated and non-dangerous) that "paint" the water according to three chromatic loops, specifically set up to gain the maximum psychophysical benefit: Tonic, Relax and Energy.

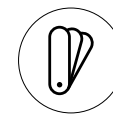

FR Le système de chromothérapie est basé sur les principes selon lesquels, l'utilisation de couleurs, généralement régi par des principes communs, aide le corps et le psychisme pour rétablir l'équilibre naturel en stimulant l'esprit et le corps et calmer certains symptômes. Le système fonctionne en insérant un système d'éclairage en trois couleurs à l'intérieur de la baignoire (installation sans danger et isolée) qui permet de "peindre" l'eau dans trois cycles chromatiques spéciquement conçus pour obtenir un gain psychophysique maximum: Tonic, Relax et Energie.

DE Die Chromotherapie nutzt die Wirkung von Farben auf unsere Seele und unseren Körper. Die Farbtherapie funktioniert mittels einem in der Badewanne eingebauten System von drei Farben (abgesicherter Einbau), die das Wasser "färben". Die drei Chromozyklen sind aus einer Studie, um das maximale Wohlbenden und Balance psychisch, wie auch physisch zu erlangen; und zwar mit Tonic, relax und Energy.

ES El sistema de cromoterapia esta basado en los principios según los cuales, el uso de colores, normalmente regulada por principios comunes, ayuda al cuerpo y a la mente a restaurar el equilibrio natural mediante la estimulación. El sistema funciona gracias a la inserción de un sistema de iluminación en tres colores dentro de la bañera (sistema aislado sin riegos), que le permite "colorear" el agua en función de tres ciclos cromáticos diseñados específicamente para obtener la máxima sensación de bienestar: Tónico, Relajante y Energetico.
